

Vehicle Acquisition and Leasing

It's Never Too Early To Think SNOW!

While you're enjoying this warm weather, remember that snow and ice season is just around the corner. GSA Automotive's Snow Maintenance Equipment is just what your agency will need to keep roads, streets, and walkways clear.

Vehicular Multiple Award Schedule (VMAS) 23 V is the answer to your snow equipment needs. Special item number (SIN) 271-102 includes Snow Maintenance Equipment (Vehicle Mounting) limited to Snowplows, salt/sand spreaders, and snow blowers.

The schedule also has Snow Maintenance Attachments including Replacement Blades and Cutting Edges for Snowplows available under SIN 272-102.

You may place your order directly with the schedule contractor or GSA Automotive can place the order for you.

For a complete list of contractors or for additional information on our construction and highway maintenance equipment visit GSA's Schedules E-Library at: fss.gsa.gov/elibrary. You may also contact GSA Automotive's Customer CARE line on (703) 308-CARS or check us out on-line at: fss.gsa.gov/vehicles/buying.

Don't be left out in the ice and snow unprepared. Place your order now!!

Replacement Parts Available!

The Office of Vehicle Acquisition and Leasing Services, GSA Automotive has replacement parts and accessories under Vehicular Multiple Award Schedule (VMAS) 23 V.

Currently there are several contractors on Schedule to supply various automotive replacement parts and accessories. Customers can expect to receive a substantial discount, whether they choose to place their orders directly with the schedule vendor or through GSA Automotive.

The following replacement parts are available under Federal Supply Schedule 23 V:

<u>Special Item Numbers (SIN)</u>	<u>Description</u>
025-101	Mirrors and Accessories Tarps Mud Flaps Vehicular Lights Commercial Washers
271-108 272-106	Spare Parts Remanufactured Engines Transmissions, Differentials, Rear Axle Assemblies and Electric Motors

For a complete list of contractors and additional information on any of these special item numbers, visit GSA's Schedules E-Library at: fss.gsa.gov/elibrary or contact GSA Automotive.

ASC Group, Inc.

Archaeology

Architecture

Ecology

ASC Group, Inc. (www.ascgroup.net) is a small, certified woman-owned business (WBE) specializing in cultural and environmental resource management. Our dedicated and quality-committed staff consists of prehistoric and historic archaeologists, architectural historians, historians, ecologists, and environmental scientists. The company is composed of three divisions: Archaeology, Architectural Surveying and Community Interpretation, and Ecology and Environmental. Services provided by the divisions include the following:

Archaeological	Architectural	Ecological	Environmental
Reconnaissance Survey	Historic Inventory	Biological Surveys	ESA
Assessments	HABS/HAER Documentation	Endangered Species	RFI/RI
Mitigation/Excavation	Photographic Documentation	Wetlands	Audits
 Contract No. GS-10F-0114M SIN 899-1- Environmental Planning Services and Documentation		Permitting	Asbestos
		Ecological Risk Assessments	NEPA Documentation
			Socioeconomic

ASC Group and its staff have provided these services in nearly every state, and for a wide range of Federal agencies. ASC Group has the commitment, experience, resources, and logistical support necessary for the successful completion of any level of archaeological, architectural, ecological, and environmental survey.

"Just a Little Bragging!"

It's not "*bragging*" when a claim is backed up by *performance*...

From day one, 1974, the federal government has been our principal customer. **Visual Image Presentations (VIP)** and our parent company, **National Air Survey Center Corporation (NASCC)** have continually provided superior photographic support to numerous U.S. government agencies in the National Capital region.

Today, thanks to the convenience of **GSA ADVANTAGE's** simplified procurement process, **VIP** is eager to expand our federal customer base. Should your SIN 19-100 service priorities include product quality and rapid response at reasonable prices, **VIP** will provide "visual proof" of our support capabilities. Please inquire...

VIP SERVICES AVAILABLE UNDER SCHEDULE 36/SIN 19/100:

QUALITY, HI-TECH CLEANERS FOR INSTITUTIONAL KITCHENS AND CAFETERIA APPLICATIONS.

"Quality Products, For the Health of your Employees and the Protection of the Environment!"

Along with one, five and 55 gal containers, the convenient portion pack is available in plastic strip and pour liquid pouches for single mop-bucket applications.

BMRT-3/MRT-2000 microbial cleaners break down oil and grease on floors and in drains, eliminate drain odors, keep drain lines clear and reduce grease trap pumping.

Bio-Sys cleaners reduce BOD/COD surcharges. We're currently **saving one federal institution \$150,000 annually** on BOD surcharges.

Bio-Sys cleaners replace costly and hazardous cleaning compounds. Bio-Sys products are **endorsed by the Insurance Industry**.

Bio-Sys products are composed of unique combination of USDA certified microbes and other high tech cleaning components.

Bio-Sys products are the only **EPA award-winning, pollution preventing, microbial cleaning system**.

Bio-Sys products meet waste minimizing regulations under RCRA 40, CFR 262 and are highly concentrated.

The Bio-Sys family of products comply with Presidential EO # 13101, issued on September 14, 1998.

The full line of Bio-Sys products is available on GSA Advantage at www.gsaAdvantage.gov, or directly from Bio-Sys at: 1-800 4-Bio-Sys (424-6797), Fax: 512-892-9444. For more information: go to our web site at: <http://biosys.cnchost.com>, or e-mail: brian@biosys.cnchost.com.

MODULAR STRUCTURES

Our business is built upon the idea that change occurs so frequently that permanent walls really become just a temporary solution. In today's environment few companies can afford the tear down, business interruption and reconstruction expense of conventional construction. PPI is ready to respond.

From our interior **System 40** partition walls to inplant offices, preassembled offices and a broad range of specialized exterior structures, you'll find that PPI combines the highest quality professional service with cost effective first class products.

PPI Modular Structures truly is a single source for any of your requirements for improved sound control, temperature control, access control and increased privacy. We have the experience to offer workable ideas and the technical background to make those ideas cost effective.

This Ain't No Beauty Contest.

E-Z-GO Textron has strongly affirmed its industry leadership with the Industrial 875, a heavy-duty utility vehicle designed to handle the most demanding jobs in any warehouse or plant facility. With a payload capacity of 3,000 pounds and a 44.5" x 69" cargo deck, the Industrial 875 is the perfect solution for tough hauling jobs. The heavy-duty, 36-volt DC, high-efficiency series-wound motor, capable of generating a top speed of 14 miles per hour and an intersecting aisle clearance of 84", also make these jobs quickly and easily disappear. One of the most unique features of the Industrial 875 is the new cargo deck, and innovative glass filled composite plastic deck board designed by E-Z-GO that is hinged for access to the

drive package and storage area. The UV stable-deck is a black polypropylene material that is 17% glass filled and won't warp or sag like plywood. Additional features of the Industrial 875 include: a Powerwise® on board, fully-automatic charger complete with anti-drive away vehicle lockout, double-reduction rack and pinion steering; heavy-duty, multiple-leaf spring suspension with hydraulic shock absorbers; a removable switch key; dual halogen headlights, tail lights and brake lights; and a standard hydraulic rear-wheel brake system complete with a hand ratcheted parking brake. The Industrial 875 is UL approved and meets all of the applicable OSHA and ANSI safety standards. It is also available in a UL "EE"-rated configuration.

November 19-21, 2002

National Interagency Wildfire Protection Equipment Conference

Host: GSA

Place: Boardwalk Hotel and Casino, Las Vegas Nevada

Objective: The objective of this conference is to address concerns, foster continued cooperation, discuss GSA and FSS support, evaluate recommendations for addition and deletion of items, discuss program improvements, critique previous fire season, and express appreciation for a job well done in the National Fire Suppression Program. This conference serves as a forum for those involved in the wild land firefighting community and offers an opportunity to present and address issues that affect the firefighter.

Meeting Format: The conference runs for three days. It starts off with a general session and is followed by individual agency and state meetings and workshops, panels and roundtable discussions. Workshops are established to discuss and address issues that impact the program. Issues that cannot be resolved at the conference are assigned as action items to a responsible individual or agency. The following workshops have been established and address subjects indicated:

Workshop A: Specifications, waivers/deviations, administrative contracting officer functions, quality control issues, and general procurement/contracting functions.

Workshop B: Operational problems, order processing, packaging, critical items, deletions, additions, National Fire Equipment System (NFES) functions, redistribution, and inventory management.

Workshop C: Vehicular fire equipment, foam, and technology transfer.

Roundtable Discussions: Dialog and brainstorming opportunities are set in classroom atmosphere and each subject is discussed at length. Evening sessions are held to further educate customers on the various GSA programs.

Audience: Wildfire protection is an interagency effort. We anticipate representation from the U.S. Forest Service, Bureau of Land Management, Bureau of Indian Affairs and numerous State Foresters. We encourage representation from National Park Service, U.S. Fish & Wildlife Service and state and local cooperators who are also actively involved in the wildfire suppression effort. Conference is open to Government, State & Local organizations only. Contractors are not invited.

For further information, contact GSA Fire Program Coordinator, Ray Balli, (817) 978-8637 or email: ramond.balli@gsa.gov

Note: Registration and attendance are free
